**GenX Sampling Near Chemours' Deepwater, NJ Facility:** Chemours informed us that it has added GenX sampling to a number of shallow on-site and off-site monitoring wells as part of the semi-annual sampling event for PFAS compounds currently underway. At our urging, during a meeting on 4/25 Chemours also agreed to proceed with initial sampling of 15 private residential wells. Chemours also stated that there is carbon filtration on the air discharge from the GenX process unit at the facility.

#### **Emergency Response for Ohio EPA and City of Wyoming, Ohio**

ORD is providing emergency response support to the City of Wyoming, Ohio and Ohio EPA by conducting analyses of PFAS in residential drinking water samples. This support is part of a broader response effort relating to an incident in which a fire suppressant (i.e., aqueous film forming foam - AFFF) accidentally contaminated a residential drinking water system.

#### **ORD meeting with Air Force Civil Engineer Center (AFCEC) on PFAS, Dayton, OH**

ORD is meeting with representatives of AFCEC at the Air Force Institute of Technology at Wright Patterson Air Force Base to discuss coordinating PFAS remediation and drinking water research, including the drinking water treatability database and associated cost models, between EPA and AFCEC. [AFCEC](#) is responsible for managing the Air Force compliance, restoration, and sustainability programs for environmental management of PFAS and other contaminants.

#### **New Hampshire Department of Environmental Services Assistant Commissioner Clark Freise Visit**

On May 1, New Hampshire Department of Environmental Services Assistant Commissioner Clark Freise will visit EPA's Cincinnati facility. He will meet with ORD scientists to discuss PFAS and the impacts of chloride on watersheds, and tour ORD's drinking water pilot plant and PFAS labs. Mr. Freise will also attend the opening session of the [ROCS-Net event](#) with regional and state scientists.
